Department of Electronics and Communication Engineering

A Report on Guest Lecture by Mr koushik Kohli

A Guest Lecture by Mr. koushik kohli was delivered on March 16th, 2016 for the students of B-Tech (ECE). Speaker narrated about the various application of 3D printing through videos. He explained us how 3D printing is useful in making Projects, Jewellery, accessories, plastic parts and apparels.

Mr. Koushik Kohli further told us about 3D printing Rapid Prototyping Techniques. He played the video of 3D Print show London 2012 and the most capturing video of the event was 3D Pizza Printing.

In addition to above discussion he further discussed about the following 3d printing technologies or some may call them types of 3D printers: Stereo lithography(SLA), Digital Light Processing(DLP), Fused deposition modeling (FDM), Selective Laser Sintering (SLS), Selective laser melting (SLM) and Electronic Beam Melting (EBM).

Lastly, he concludes the session by listing the importance of 3D Printing. This lecture has proven to be very inspiring and informative for the students.
